

Summer is all about fun and relaxation. It is a time to spend time with family and friends and recharge between school years. We hope that you can find some time for math this summer, too! To meet the Summer Math Challenge, you need to complete 15 hours (or 900 minutes) of math over the summer.

WHY SHOULD I DO MATH?

- Keep your skills sharp over the summer.
- Start the new school year with confidence!
- Feel prepared for our first MAP test in the fall.

WHAT TYPES OF MATH CAN I DO?

- Math skills workbooks
- IXL
- Xtra Math
- Flashcards
- Math apps
- Tutoring
- Math camps

ANYTHING ELSE?

- ❖ Students can keep track of their math minutes on the record sheet with the timers.
- ❖ Students can fill out the back of the sheet with the types of math they did!
- ❖ The calendar is due by Friday, September 4th, to either your homeroom teacher or to the main office.

WHAT'S THE REWARD?

- ✓ Besides keeping your math skills sharp, students who complete the challenge will also take part in a celebration on Friday, September 11th!
